

Pierluigi Monaco

Finance Business Partner with a career focused on transforming complex finance departments into efficiency hubs. I have consistently driven the evolution of business processes by integrating automation and new technologies to reduce manual work and create value. Expert in translating data into decisions, supporting the Board in generating **\$4M in additional revenue** and optimizing **operational costs by \$9M**. I combine technical strength (IFRS/GAAP) with the ability to build cohesive and proactive teams.

PROFESSIONAL EXPERIENCES

WIND SpIE Srl

Finance Manager – Process Optimization Lead | Apr 2026 – May 2026

- Designed and implemented a Power Query automation system for monthly payroll bookings and SAP reconciliations, cutting processing time from 2 weeks to 2 hours per month (–98% process time), with an estimated saving of approx. €45K/year in operational capacity reallocated to higher-value activities;
- Developed and deployed a project-level P&L model with full cost allocation logic, realigning project margins from an unallocated 100% to a realistic 55%;
- Remapped SAP cost centers and rebuilt local P&L reporting lines aligned with the Corporate reporting model, strengthening month-end close controls;
- Reconciled 4 months of historical payroll-to-SAP data applying GMAT logic to reallocate vehicle fleet costs to operational projects.

OpenText

Worldwide Commercial Finance Manager | Apr 2023 – May 2025

- Served as strategic finance advisor to 3 global SVPs, overseeing a \$205M revenue portfolio and a \$95M cost structure across EMEA, North America, and APAC. Enabled effective resource allocation for 425+ FTEs;
- Directed the development and deployment of a global financing policy for \$6B operations in collaboration with Treasury, enhancing financial governance and risk mitigation;
- Sharpened resource allocation strategies across three global regions, which trimmed budget discrepancies by 15%, plus amplified forecasting accuracy using advanced data analytics;
- Created and launched AI-driven bid management and pre-sales tools, yielding an initial 5% productivity uplift and paving the way for scalable growth (up to +15%);
- Guided financial governance initiatives and advanced revenue visibility within the SAP strategic channel, generating \$5M+ in incremental revenue and a 20% gain in forecast accuracy;
- Awarded promotion and stock grant in FY25 for exceptional financial stewardship, driving a 10% reduction in operational costs across three global regions.

Worldwide Commercial Business Partner | Apr 2022 – Apr 2023

- Introduced and enforced a financial governance structure to support the shift from perpetual licensing to a cloud/subscription-based model, influencing \$58M in revenue;
- Negotiated and finalized \$4M+ in strategic cloud-based contracts, reinforcing transformation of the business model;
- Deployed a suite of P&L dashboards, allowing the finance team to detect and rectify the three most significant drivers of revenue leakage, enhancing budget transparency and forecast accuracy;
- Developed scenario-based P&L models in Excel and provided real-time analysis of contract profitability, yielding 15% higher average contract value;
- Reduced the contract loss rate from 20% to 10% by refining financial models and fostering alignment between Sales and Product divisions.

CORE PROJECTS

Title: Finance Automation – Energy Sector

Company: WIND SpIE Srl (2026)

Target: Eliminate manual processes and build reporting from scratch

Description: Design and implementation of an end-to-end automation system for payroll booking and SAP reconciliations via Power Query. Rebuilt project-level P&L model with full cost allocation logic. Remapped cost centers and aligned to Corporate reporting.

Business goal: –98% process time (from 2 weeks to 2 hrs/month); €45K/year saving; project margins realigned from 100% to 55%.

Title: Subscription Model Transformation

Company: OpenText (2022 – 2023)

Target: Transition from perpetual licences to subscription model for Vertica and Portfolio lines

Description: Guided the transition from traditional licensing to a subscription model. Defined new governance, P&L and revenue recognition models in collaboration with Sales, Legal and Product Management.

Business goal: + \$6.9M new corporate subscription achieved; maintenance loss rate reduced from 20% to 10%.

Title: Financial Optimisation – Turkey

Company: Micro Focus (2018 – 2022)

Target: US GAAP alignment and improvement in margins for strategic customers

Description: Led the currency conversion from Lira to USD, eliminating FX exposure in a hyperinflationary environment. Harmonised accounting and reporting with US GAAP principles, coordinating 10+ stakeholders. Negotiated rebate review with Turkcell.

Business goal: Exchange exposure neutralized on a portfolio of over \$35M annual revenue.

Title: Global Financing Policy – \$6B

Company: OpenText (2023 – 2025)

Target: Global financing policy

Description: Study and design of a global financial strategy in collaboration with Treasury to support worldwide operations, standardising internal financing and payment policies.

Business goal: Policy applied to transactions worth over \$6 billion worldwide.

PROFESSIONAL EXPERIENCES

Micro Focus – acquired by OpenText in 2015

Finance Business Partner – North, South, DACH & International Pre-Sales | Apr 2018 – Apr 2022

- Directed \$51M in revenue and \$37M in cost management across 11 countries, enabling support for 166 FTEs in a highly matrixed international environment;
- Led the successful execution of the Turkish currency conversion to USD functional currency, mitigating FX risk and ensuring IFRS/US GAAP compliance with full audit approval;
- Orchestrated post-merger integration of \$9M MDF/rebate processes, standardizing accruals and reporting across EMEA & LATAM and improving monthly close timelines;
- Recovered \$1M+ in overdue receivables while training regional accounting teams to reinforce compliance and operational rigor;
- Earned ‘Support Person of the Month’ recognition for exceptional financial modeling and insightful variance analysis, directly influencing executive decisions on resource allocation.

Hewlett Packard

Finance Lead – Support & Professional Services | Apr 2007 – Apr 2018

- Led end-to-end P&L and FP&A processes for Support and Consulting across EMEA, achieving forecast variance below 5%;
- Created and institutionalized a standardized gross margin analysis model used across EMEA clusters, improving data accuracy by 95%;
- Implemented centralized cost control through a Shared Service Center, cutting redundant expenditures by 15% in the first year;
- Advised on and supported strategic negotiations for deals valued at \$0.8M–\$2M with top-tier clients including ENEL, WIND, INPS and Poste;
- Delivered regional training initiatives and served as Finance Ambassador for Italy, advocating for best practices and tool adoption.

Senior Credit Analyst / Channel Field Credit Representative | Apr 2003 – Apr 2007

- Managed credit exposure of \$200M+ across 20+ channel partners, achieving optimal balance between business growth and credit risk control;
- Revamped EMEA-wide factoring operations and established a European Center of Expertise, improving credit governance and efficiency;
- Appointed Subject Matter Expert for Moody’s RiskCalc and SAP-RM systems, training 10+ analysts and elevating data accuracy by 40%;
- Collaborated with Sales and Legal teams to define scalable, secure credit frameworks, achieving a 6-day reduction in Days Sales Outstanding (DSO);
- Earned ‘Employee of the Year – 2005’ for cross-functional excellence, strategic financial contribution and cross-functional impact.
